Buchtipps

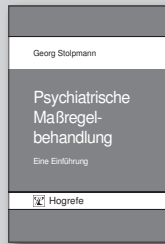

Eva-Maria Fahrner / Götz Kockott

Sexualtherapie

Ein Manual zur Behandlung sexueller Funktionsstörungen bei Männern

(Reihe: »Therapeutische Praxis«)
2003, XII/168 Seiten, Großformat,
€ 32,95 / sFr. 55,-
ISBN 3-8017-1456-X

Das Manual vermittelt praxisnah die Arbeitsweise der modernen Sexualtherapie. Die therapeutischen Interventionen werden mit Hilfe von Handlungsanweisungen, Grundregeln und Beispielen so detailliert dargestellt, dass die Umsetzung in die Praxis leicht nachvollziehbar ist. Das diagnostische Vorgehen wird fundiert beschrieben. Dabei wird insbesondere auf die vielfältigen Schwierigkeiten bei der Gesprächsführung eingegangen. Die einzelnen Behandlungsschritte werden für die verschiedenen Sexualstörungen klar strukturiert und anschaulich dargestellt.

Georg Stolpmann

Psychiatrische Maßregelbehandlung

Eine Einführung

2001, 373 Seiten,
€ 36,95 / sFr. 63,-
ISBN 3-8017-1448-9

Mit besonderer Betonung des klinischen Teils der forensischen Psychiatrie wird hier erstmals eine an der Praxis orientierte Einführung in die psychiatrische Maßregelbehandlung vorgestellt. Das Buch schließt damit die Lücke zwischen allgemeinspsychiatrischen und psychotherapeutischen Lehrbüchern sowie der Literatur zur Begutachtungspraxis. Die Darstellung umfasst therapeutische Ansätze für spezielle Patientengruppen sowie Behandlungsvorschläge in typischen Situationen in der Maßregelunterbringung. Darüber hinaus werden Hinweise für die Erstellung von Therapieplänen sowie für die Fertigung von Stellungnahmen und Prognosen gegeben.
